

Let patients know you accept CareCredit... It's that easy.

Patients want convenient ways to pay for their healthcare costs. CareCredit gives patients the ability to pay over time with promotional financing options for purchases of \$200 or more.* **They can use CareCredit to pay deductibles, copays and out-of-pocket expenses not covered by insurance.**

Here are two easy ways to offer CareCredit as a payment option when talking to patients:

1. Include CareCredit along with other forms of payment you accept:

"We accept cash, check and credit cards, including Visa, MasterCard, Discover, American Express and CareCredit."

2. Include CareCredit when you mention in-house payment plans:

"We have in-house payment plans and we also accept the CareCredit credit card."
