

Add CareCredit to Your Website in Three Simple Steps

Your website may be the first stop for people seeking providers who accept CareCredit.

Add CareCredit to your website in three steps. Our simple widget does most of the work for you, no coding expertise required! This will let people know you offer financing options if cost is a barrier for accepting care.

Here's how to get started:

1
Select the color, font and more to match your brand

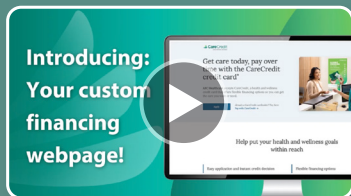

2
Copy the code

3
Paste it into your website editor
